

# Small Display Cabinets

## Presentation is everything

In order to display your books to their best advantage we produce purpose built display cabinets. These are available either to standard designs or as individually designed items.

Cabinets can be produced in most timber finishes including Light Oak, Beech, Cherry through to Black American Walnut. All cabinets are supplied with a hinged lockable lid and lid support and fabric covered book rests to display your books.

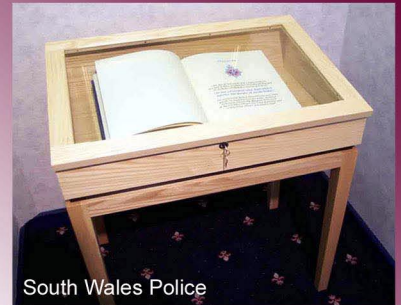

Standard designs can be supplied in various formats including flat top, sloping top, leg standing or wall mounted. Average dimensions of a standard single display cabinet on legs are H 900mm x D 550mm x W 800mm and will comfortably display an open book up to a size of 560mm x 390mm.
